- Tapping
- Routing
- Broaching
- Deburring
- Sanding
- Buffing
- Screw Machining
- Molded Parts Machined to Spec
- Laminates Glued
- Inserts Installed
- Light Assembly

**CERTIFIABLE QUALITY:** All our materials meet National Electrical Manufacturers Association (NEMA) specifications, Underwriters Laboratories (UL), FDA and CSA. MOORE-ADDISON incoming inspection is at a level where we will certify and notarize the materials from which we make your parts.

**ON TIME DELIVERY:** We deliver on time. Normal lead time is two to three weeks. But, things change and we can pursue alternatives. Please call us to solve your scheduling problem.

**COMPETITIVE PRICING:** The lowest price is not always the best value. We produce quality parts complying with ISO9000 standards. MOORE-ADDISON invites customers to share in the lasting value of quality delivered in a timely fashion.

**PERSONABLE SERVICE:** A person picks up by the second ring. Nothing mechanical; no prompts! A knowledgeable person will be excited to answer your questions and write down your requests. Our fax machine is a tool to help two people clarify what they are discussing.

**Short or  
Long Run**

**Same Quality  
of Service  
and Product**
